Observations and Corrective Actions

Violations cited in this report must be corrected within the time frames below, or as stated in sections 8-405.11 of the food code.

Spell

8 6-301.11 Handwashing Cleanser, Availability - PF One of two hand sinks had no soap available. PIC stated that they buy soap from Sams Club as needed. Purchase enough hand soap to prevent running completely out. All hand sinks must be stocked with soap and paper towels at all times.

- 3-501.16 (A)(2) and (B) Potentially Hazardous Food (Time/Temperature Control for Safety Food), Hot and Cold Holding P Lettuce and tomato on front service line were above 45F (48 61F) at start of inspection due to the cooler line being turned off. All potentially hazardous foods must be kept at 45F or lower at all times. Equipment should be checked to be on and functioning appropriately prior to putting food into the unit. Employees must check temperatures periodically to monitor changes and address temperature issues. CDI: Lettuce and tomato replaced with lettuce and tomato from the walk in cooler that were between 39 41F.
- 47 4-602.13 Nonfood Contact Surfaces C Clean the bottom cabinet of the display cooler to remove crumbs. Clean the vent area of the display cooler to remove dust and food debris. Clean the handle of the microwave to prevent dry buildup. Non food contact surfaces must be kept clean. 0 pts
