

SUMMER READING 2019

Book Recommendations for Adults

Delta-v

by Daniel Suarez

A billionaire recruits a team of adventurers to launch the first mining operation in space—with the aim of kick-starting an entire off-world economy—but the team soon discovers the extreme risks they'll be facing. By a New York Times best-selling author

The Martian : a novel

by Andy Weir

Stranded on Mars by a dust storm that compromised his space suit and forced his crew to leave him behind, astronaut Mark Watney struggles to survive in spite of minimal supplies and environmental challenges that test his ingenuity.

Artemis : a novel

by Andy Weir

Augmenting her limited income by smuggling contraband to survive on the Moon's wealthy city of Artemis, Jazz agrees to commit what seems to be a perfect, lucrative crime, only to find herself embroiled in a conspiracy for control of the city

Red moon

by Kim Stanley Robinson

Thirty years after China established the first colony on the Moon, an American who witnesses a murder, a celebrity travel reporter, and the daughter of China's Minister of Finance, all find that it is a very deadly place

Leviathan wakes

by James S. A. Corey

After Captain Jim Holden discovers a derelict, abandoned spaceship, he unearths a secret that threatens to throw the entire solar system into war and a vast conspiracy that could mean the end of the human race

Before Mars

by Emma Newman

Arriving on Mars for her new job as a geologist and de facto artist in residence, Anna Kubrin, after receiving a strange note in her own hand, begins to suspect that she is caught up in an elaborate corporate conspiracy that could cause her to

lose her grip on reality and to face unimaginable horrors. By the author of After Atlas. Original.

Provenance

by Ann Leckie

Power-driven young woman Ingray has just one chance to secure the status that she craves and regain priceless lost artifacts prized by her people: she must free their thief from a prison planet from which no one has ever returned

Aurora : Library Edition

by Kim Stanley Robinson

Generations after leaving Earth on humanity's first voyage beyond the solar system, a starship draws near to a planet that may serve as a new home world for those on board.
