

# Mosquito Problems Start at Home

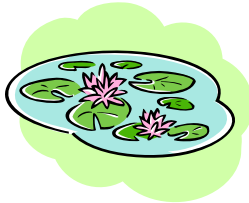

Throw away old bottles and cans

Clean leaf-clogged gutters

Empty water from flower pot dishes

Clean overgrown ponds and stock with fish

Change water in birdbaths weekly

Screen or cover rain barrels

Repair leaking faucet

Throw away or destroy old tires

## Don't Give Mosquitoes a Chance!

Mosquitoes need water to breed and grow. It doesn't take much water and it doesn't take much time. So, almost anything that will hold water for one week or more can produce these pests. Many places around your home may be causing mosquito problems. Destroy or empty these places and mosquitoes won't have a chance.
