Observations and Corrective Actions Violations cited in this report must be corrected within the time frames below, or as stated in sections 8-405.11 of the food code.

14 4-601.11 (A) Equipment, Food-Contact Surfaces, Nonfood-Contact Surfaces, and Utensils - P- Slicers were just cleaned by an employee but they still had food debris on them on the back side of the blade. Food contact surfaces shall be clean to sight and touch. CDI- The PIC cleaned each slicer and will hold a training session on the proper way to clean the slicers.

- 34 4-302.12 Food Temperature Measuring Devices PF-*REPEAT*- Only a dial stem thermometer is available for use and it has a crack on the face with grease build up inside. A thermometer with a small diameter probe designed to measure foods of thin masses (slices of deli meat/cheese, potato wedges, small chicken pieces like wings) shall be available and used. VR-Verification required for compliance by 2/23/18. Contact Angie Pinyan at 703-2618 or pinyanat@ forsyth.cc
- 37 3-307.11 Miscellaneous Sources of Contamination C- There is a food prep sink right next to the utensil washing sink in the deli. The drainboard for the food prep sink is next to the drainboard for soiled utensils. The PIC stated that lettuce is washed at this sink as well as opening packages of bulk deli meats (RTE foods). To prevent splash of soiled utensils onto the drainboard or onto foods prepared at the prep sink, a splash guard will need to be installed since distance separation is not an option due to space limitations. Foods shall be protected from contamination.

Observations and Corrective Actions	×	(
Violations cited in this report must be corrected within the time frames below, or as stated in sections 8-405.11 of the food code.	Spe	el l

43	4-903.11 (A) and (C) Equipment, Utensils, Linens and Single-Service and Single-Use Articles-Storing - C- Bulk boxes of single
	service were stored on the floor in the storage room next to the canwash. Single service items shall be stored above the floor at
	least 6 inches and stored so they are not exposed to splash, dust or other contamination. Additional shelving is needed for all the
	single service items for the deli/bakery items.

5-501.113 Covering Receptacles - C-*REPEAT* Both dumpster doors were open today. Dumpster doors shall have tight fitting lids and doors. Keep doors closed at all times.
 5-501.115 Maintaining Refuse Areas and Enclosures - C- There was garbage and food on the ground around the dumpster, inside the enclosure. The dumpster area shall be maintained clean.
