Establishment Name: BAGEL STATION II Establishment ID: 3034012844

Observations and Corrective Actions

Violations cited in this report must be corrected within the time frames below, or as stated in sections 8-405.11 of the food code.

- 31 3-501.15 Cooling Methods PF Tomatoes sliced this morning were in plastic wrapped container in base of prep cooler at 55F. Potentially hazardous foods must be cooled quickly using an approved method; prep coolers are not designed to rapidly cool foods. Cooling methids are a REPEAT from the previous inspection. CDI tomatoes uncovered and placed on top shelf of walk-in cooler to cool.
- 39 3-304.14 Wiping Cloths, Use Limitation C 2 soiled wiping cloths sitting on cutting board at beginning of inspection. Once wiping cloths are damp or soiled, they must be held between uses in a container of properly mixed sanitizer, or placed in soiled linen.
- 5-103.11 Capacity-Quantity and Availability PF Hot water was not available in women's rest room; water was only reaching 75-78F. Hot water generation and distribution systems shall be sufficient to meet the peak hot water demands of the food establishment. CDI valve under sink was adjusted, and hot water was then 108F. Water at hand sinks needs to be a minimum of 100F.
